TOWHID HOSSAIN
Junior Front End Developer
Address: Faridganj, Chandpur.
E-mail: towhid3008@gmail.com
Linkedin: https://www.linkedin.com/in/towhid-hossain-4b9a1678/
Github: https://github.com/towhiid
Mobile: +8801711-085792

Programming Skills:

- Expertise: HTML5, CSS3, JavaScript, ES6, Bootstrap, Reactjs etc.
- Comfortable: Mongodb, Nodejs, Firebase, Heroku, Netlify.
- Familiar: Redux, Axios, Angular, React Native.
- Tools: VS Code, Git, Chrome DEV Tool, Sublime Text.

WORKING EXPERIENCE:

I have done a few projects for my learning purpose.
My projects at a glance:

1. Travel-Guru:
   - Information about travel destination at home page.
   - By selecting specific place, redirect to booking page to book hotel or resort.
   - Details about hotel rooms of respective destination.

   Technology Used: react, javascript, firebase, bootstrap.

   Live-Link: https://travel-guru-route.web.app/

2. Volunteer-Network:
   - Full stack volunteer activities site, used mongodb as backend server.
   - People can sign up for event from landing page. User can see only own events.
   - Admin can check and modify any of users works.

   Technology Used: react, javascript, firebase, react bootstrap, mongodb, heroku.

   Github-Link: https://github.com/towhiid/volunteer-network-client
   Live-Link: https://volunteer-network-task.web.app/

3. Online-Course:
   - React project for online courses, built using simple react functionalities.
   - Used react router to navigate different components.
   - Added cart and total items option at the right sidebar.

   Technology Used: react, javascript, netlify, bootstrap, html, css.
